

Look, Listen, Discuss

Awaken your senses and spark curiosity

A fun tool for a walking field trip around the neighbourhood.
Lets slow down and take in the biodiversity of our own natural backyard.

Keep a tally (or name) the different types of birds you see.

How many different bird sounds can you hear?

Imagine it is night time, which nocturnal animal(s) might you see or hear?

Do you hear any other sounds? How many?

What types of living or non-living things do you think the sounds are coming from?
